Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it parvedes the whole body, and may burst out to disease in any part of it. No organ is free from its attack upon is there one which it may not destroy. The scrofulous taint is caused by mercurial disease, low living disordered or unhealthy food, impore air, fifth and althy habits, the depressing vices, and, above all by the venereal infection. Whatever be its origin, it is hereditary in the Constitution, descending from parents to children, unto the third and fourth generation; indeed, it seems to be the red of Him who says. "I will visit the iniquities of the fathers upon their child en."

Its effects commance by deposition rom the blood of Corrupt or u'c rous matter, which, in the hings, liver, and internal organs, is termed tuber cles; in the giands, swellings; and, on the surface, sruptions or some. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not early suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently sast numbers perish by disorders which, although not scrofulous in their nature, are still remisered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this estolutions continuination; and search the first persons are invaled by this lurking infection; and their health is undermined by it. To decanse it from the system we must renovate the blood by an alterstive medicine, and invigorated by the same cause.

One quarter of all our people are scrofulous; their persons are invaled by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterstive medicine, and invigorated to be healthy food and exercise. Such a medicine we supply in Scrofula, or King's Evil.

Compound Extract of Sarsaparilla, Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everywhere prevaling and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which actis from it, such as Enurrivz and Skin Diseases, St. Anthony's First, Bosz, or Entrypralas, Pinepas, Pustules, Blattones, Blating, and Boiles, Tumors, Terraca and Skin Rheum, Scald Head, all Complainty American Syphilitric and Mencunial Diseases, Daopsy, Desertity and, indeed, all Complainty and answering for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.
